7. ANOTHER INSTANCE

8. THE DOG SONG

9. ALL KINGS

10. A TOAST TO THE SONGS

11. SUMMER INTERLUDE

## **1. ON THE FLOOR**

and did you see her? flying through the town  
did you say you could see her? right when you went down and  
did you want something more? better than you found, did you  
look on the floor? look down on the ground and did you think  
about maybe ... you did something wrong? everybody had so  
much to say

and did you think you could show me? show me how it goes, do  
you think you could show me? something that you know, I see  
you want something more, better than you found, did you look  
on the floor? and did you think about maybe you did something  
wrong? something in the song you forgot to hear, you know it's  
never been clear

and were you looking for answers? trying to find your way were  
you looking for answers? something you could say when they  
ask you about it...wonder what you'll say when they ask you  
about it ... wonder who you'll blame I bet you're thinking that  
maybe ... you did something wrong?

## 2. RUNNING

Everybody knows, anyone can see  
In the air it's coming through the breeze  
Everybody talks about it  
something in the wind  
Here it comes again, here it comes again

You might get to see it one day  
shining like the sun  
You might get to be it someday  
you could be the one  
And you think you got it coming  
still you keep on running that's your way  
Maybe you'll run to me one day

It takes everything but time,  
takes no time at all  
Starts with what's on your mind  
and who you call  
Wonder what you're listening to  
it means a lot to me  
Sure would like to see you breaking free

You might get to see it one day  
shining like the sun  
You might get to be it someday  
you could be the one  
And you think you got it coming  
still you keep on running that's your way  
Maybe you'll run to me one day  
Maybe you'll run to me one day

Listening to the river  
Sun upon my face...  
Easier to feel a state of grace

You might get ....

## 3. A REASON

Do you remember where we used to go?  
Living forever the time was so slow  
I wanted to go so fast

We always needed a reason why  
We never noticed the seasons go by  
Stuck in the mirror and worried for good bye

But all the seeds that we planted  
they're still growing now and every time  
we took chances it worked out somehow  
and if there's a reason it's lost on us still

I don't remember the time  
but I still see the place  
the smell in the air and that look on your face  
Trying for something they couldn't erase

Seasons and seasons and years will go by  
let's hope the choices we made on the fly  
Turn out to be the good ones

Maybe a letter maybe a song  
maybe a feeling you carry along  
Something will tell you I'm with you

Cause all the seeds that we planted  
they're still growing now and every time  
we took chances it worked out somehow  
and if there's a reason it's lost on me still

I don't remember the time  
but I still see the place  
the smell in the air and that look on your face  
Trying for something they couldn't erase

Maybe a letter maybe a song  
maybe a feeling you carry along  
Something will tell you I'm with you.

#### **4. DON'T LISTEN TO HAZY JANE**

You can go out looking, see what you will find  
You can travel all the world looking for your mind  
You should do a lot of things to try to break that chain  
but don't listen to Jane

Maybe you can find a book, treasures you will know  
Maybe you can take a look, maybe you should go  
Could be you could save yourself from winning the game  
but don't listen to Jane, you'll never be the same

Don't listen to Hazy Jane  
She will always find you  
She will lead you right out in the rain  
Tell you go get lost again

If you got no money, if you got no time  
If you got nobody to see you cross the line  
You can find a lot of things will tell you the same  
but don't listen to Jane

She will tell you secrets never tell you lies  
She will turn up places you would be surprised  
Once you hear her calling you you'll wind up just the same  
as everybody listening to Jane

Don't listen ...

Maybe it's the morning, maybe it's the night  
Anytime you need a friend she'll make you feel all right  
You'll see all the flowers, you won't mind the rain  
When you're listening to Jane

So Don't listen to Hazy Jane .....

## 5. BURY YOUR DEAD

Do you remember seeing her?  
Remember what she said?  
Be the truth you're seeking  
and don't forget to bury your dead

She comes to you when you're sleeping  
Planting seeds in your head  
Forget the score you're keeping  
Girl you got to bury your dead

Something about the music  
Something 'bout getting in line  
Something about the way it's going faster all the time  
Maybe we're here forever and that's why it matters how  
Maybe we're here together and that's what matters now

I know I can find you though I don't know why or where  
Sometimes I don't mind you but you're always there  
I came across you yesterday you were  
somewhere like a dream  
You don't say a word to tell me what you mean

Something about the music ...

She'll be there in the morning  
to remind you of what's been said  
She was here this morning told me  
Don't forget to bury your dead  
Now's the time to bury your dead  
Girl you got to bury your dead

## 6. OLD PHOTOGRAPHS

What were we doing there?  
Who were we with?  
What were we trying to say  
about the way we thought about it?  
Everyone tries,  
some try harder, some try easier

What were we trying to do?  
Who did we think we were?  
Who did we think we had to be  
to be the way we wanted?

I'm not saying anything  
I'm not going anywhere  
I'm just trying to be right here now

What were we wearing?  
You were so thin  
You were always saying  
how we'd be the first to begin

So what were we waiting for?  
Yeah we were always waiting for something  
Yeah we were always trying to find a way  
to be the way we wanted,  
to be the way we wanted

I'm not saying anything  
I'm not going anywhere  
I'm just trying to be right here now

What were we thinking?  
Why did we think that way?  
Can we make it different?  
Better for them, better for them, better

## 7. ANOTHER INSTANCE

It's just another instance that you could fly, but you got caught up in why. It's just another instance you could be free. Don't look at me. I don't know nothing, nothing 'bout the way out. I don't know nothing. You got another reason, reason to be. Check it and see. Here comes another season, season to be. Let's look and see. Looking with new eyes, everything around us. Let's look with new eyes now. It's just another instance we could be free. Looking with new eyes. Everything around us. Let's look with new eyes. Let's look and see.

## 8. THE DOG SONG

Looking out the window waiting, waiting  
What are you hoping to find?  
Some kind of reason some kind of friend some kind of good time  
Somebody's calling nobody answers  
Somebody's driving by  
and you're there crying like a dog that's been left behind  
Maybe it's time you change your mind

Up in the morning crack of the dawn  
Somebody take me outside  
Somebody feed me somebody need me  
Come on take me for a ride  
Must be the spring cause I'm ready to run  
Seems like everyone's having more fun  
and I'm here crying like a dog that's been left behind  
Maybe it's time I change my mind  
Thinking it's time I change my mind

I could be something I could be free  
You could be you and I could be me  
But I keep holding onto something that keeps me inside  
I want to go out I want to roam  
want to stay out and not come home  
Want to see the future open wide

Follow him around you're ready, ready, ready for a bone  
Do what you want and I'll love you just don't leave me alone  
You can go somewhere I always stay here  
You never have enough time  
and I'm here crying like a dog that's been left behind  
Maybe it's time I change my mind  
Thinking it's time I change my mind

Looking out the window waiting, waiting  
What are you hoping to find?  
Some kind of reason some kind of friend some kind of good time

## 9. ALL KINGS

Everyone's reaching, hands to the sky  
Everyone's trying, sometimes we cry  
Everything's better here in the sun  
You think it's over, it's just begun

We've got some good ones alive over here  
They like to play it and we like to cheer  
and we wanna keep going and we wanna go more  
and we won't stop dreaming what we're doing it for

Yeah we're all kings  
Here we're all kings  
City of Dreams

and we're looking for new ways to say it again  
we're always looking for new ways to be a friend  
Sometimes it's shining, sometimes it's gray  
Sometimes we're going, sometimes we stay  
and we're looking for something  
and we're mining for gold  
like we're living forever  
like we'll never grow old

Yeah we're all kings ...

and there was so much you wanted to say  
looking for more time now you're going away  
You say that nobody told you  
Try telling yourself  
and if you don't like it  
Try something else  
Try something else  
Something else

Yeah we're all kings ... city of dreams

## 10. A TOAST TO THE SONGS

Ode to this day, this magical day  
You couldn't help singing along  
Remember the times when you cried in the winter  
Feeling that everything's wrong?

But we get to be here we get to dream  
We get to be here today  
Who knows what's coming  
Who cares what's past  
So far we're built to last

So let's drink a toast to our friends who are here  
and a toast to those who have gone  
Here's a toast to hanging around  
and a toast to traveling on  
and here's to this day, this beautiful day,  
now that it's passing along  
So long, farewell, and if we're still standing  
A toast to the songs, a toast to the songs

Ode to this night, this magical night  
You couldn't help playing along  
There will be times when it's not so easy  
Times when we don't feel this strong

But we get to be here we get to dream  
We get to be here tonight  
Who knows what's coming  
Who cares what's past  
So far we're built to last

So let's drink a toast .....

## 11. SUMMER INTERLUDE

and someone always leaves the room  
and someone always sits down on the bed  
or looks in the mirror like they see everything there  
never seen anything there just my face looking back at me

and which will it be?  
the twisted or the fuzzy version?  
and what will they see?  
the color or the sound of the story?  
and how he and how she  
and what they're gonna do about it now  
come on out and take your bow

and the sun is setting  
seems like the sun is always setting  
and the moon is always rising too  
and there's something to believe in  
something you can count on  
there that's something to believe in  
it's the thing the thing you count on

and which will it be?  
the twisted or the fuzzy version?  
and what will they see?  
the color or the sound of the story?  
and how he and how she  
and what they're gonna do about it now  
it's second harvest now

and someone often cries out  
it's better if someone cries out  
best way to the heart of the matter  
and laughter, we're gonna need laughter  
remember how I laughed so hard I cried?  
seemed to turn the tide

and which will it be? .....

and the sun is setting  
seems like the sun is always setting  
and the moon is always rising too.
